EXPERT Home Design™

Create a Professional Room or House Plan

Select from the FREE furniture shape library for use in your design.

Simply position cursor to draw window or wall.

Draw lines, boxes and dotted lines. Fill in color.

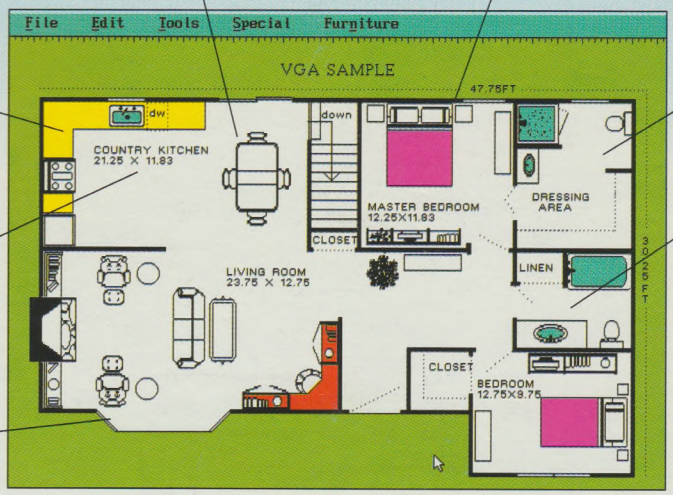
Instantly calculates dimensions

Position windows and make changes easily.

Quickly try furniture in different locations.

Indicate bathroom and plumbing fixtures.

Set the scale: large (64 ft) or small (32 ft).



Expert Home Design is Fast, Easy and Fun!

Creates the right size plan for you:

- Set Scale to large (64 ft) or small (32 ft).
- Draw lines, boxes or dotted lines for boundaries.
- Automatically shows line length as you draw.
- Calculate square footage of the plan.
- Erase a wall or door and draw a new one in.
- Take a furniture outline from the 200+ piece library and drop it in the plan.
- Try furniture in different positions.
- Eraser tool to make corrections.
- Add regular or triple size text to drawing.
- Tag room names and free form text to each room, print on separate page.

Print your plans to facilitate decorating or building:

- Prints to standard graphics printer.
- Optional blueprint mode prints white on black.
- Scales to standard wall widths, stud separations.
- Separate program module calculates total building, mortgage cost, with specified margin of error.
- Save to standard .PCX file if you wish to embellish with a PC paint program (not included).
